

COUNTY GOVERNMENT OF MARSABIT

MARSABIT MUNICIPALITY

MARSABIT MUNICIPAL ANNUAL INVESTMENT PLAN

FY 2024-2025

The documents heavily borrowed its content from the municipal integrated development plan (IDeP) and the current county integrated development plan ((CIDP)

Introduction

This annual development plan for the year 2024-2025 document was prepared by the County Project Coordination team based on the Integrated Development Plan (IDeP) for Marsabit Municipality covering the year 2024-2029. The plan reflects the investment plan for the municipality as proposed in the various citizens' fora conducted.

The team was conscious to consider the prioritization of the needs of the residents of the municipality while taking into account the guidelines as stipulated in the KUSP Programme Operation Manual. The key development activities identified from the citizen participation include proper solid waste management and increased connectivity.

Background and Objectives of the municipality.

Municipality of Marsabit was established through Marsabit Municipal Charter as approved by the County Assembly and assented to by H.E the Governor of Marsabit County in line with the Urban Areas and Cities Act (UACA) of 2011, amended 2019. The Municipal Board as per the same Act, is obliged to formulate and implement yearly investment plans.

The Objectives of Marsabit Municipality are to:

- Provide for efficient and accountable management of the affairs of the Municipality.
- Provide for a governance mechanism that will enable the inhabitants of the Municipality to participate in determining the social services and regulatory framework which will best satisfy their needs and expectations, verify whether public resources and authority are utilized or exercised, as the case may be, to their satisfaction and enjoy efficiency in service delivery.
- Vigorously pursue the developmental opportunities which are available in the Municipality and to institute such measures as are necessary for achieving public order and the provisions of civic amenities, so as to enhance the quality of life of

the inhabitants of the Municipality.

- Provide a high standard of social services in a cost-effective manner to the inhabitants of the Municipality.
- Promote social cohesiveness and a sense of civic duty and responsibility among the inhabitants and stakeholders in the Municipality in order to facilitate collective action and commitment towards achieving the goal of a harmonious and stable community.
- Providing for services, laws and other matters for Municipality's benefit.
- Fostering the economic, social and environmental well-being of its community.

Context of the Plan

The financial years 2024-2025 Annual Investment Plan is a detailed and structured plan that outlines the municipality's planned investments in development projects and activities over the financial year. The primary aim of the Marsabit Annual Investment Plan is to direct resources toward development goals and ensure alignment with national, county, and local priorities. The Plan focuses on both capital investments (e.g., infrastructure) and non-capital expenditures (e.g., operational and maintenance costs) that directly contribute to the municipality's economic, social, and environmental growth.

The key elements that the Marsabit municipality considered while preparing the Annual Investment Plan include but is not limited to;

1. **Identification of Priorities:** The Annual Investment Plan is driven by the municipality's development priorities, as outlined in the Integrated Development Plan (IDeP), the County Integrated Development Plan (CIDP) and national policy frameworks.
2. **Project Selection:** The investment plan includes a selection of specific projects such as water supply systems, waste management, road construction, and social housing.
3. **Project Budgeting:** It contains detailed cost estimates for each project, with funding sources identified (e.g., national government allocations, county revenues, donor

funds).

4. **Timeframes and Milestones:** Projects are scheduled to be completed within a given time frame, with set milestones to assess progress.
5. **Monitoring and Evaluation:** A robust system for monitoring the progress of each investment is put in place to track how effectively funds are being used and to measure outcomes.
6. **Public Participation:** Citizens' input is often sought during the drafting phase of the Annual Investment Plan, in line with Kenya's legal framework on public participation in governance.

As it was outlined in the Integrated Development Plan (IDeP), Marsabit Municipality has set strategic pillars and deliverables that will help guide the municipality on a new development trajectory which will aim to create a municipality of opportunities whilst being safe and clean throughout the year.

Annual Investment Plan priorities for the year 2024-2025.

The priorities as identified from the citizens’ fora and deliberated by the Municipal Board members are as below:

S/N	Challenge	Area	Strategies	Programmes
1.	Clogged Storm Water Drains	Marsabit Municipality	Unclog and clean up drainage system. Harvesting of rain water to reduce surface runoff.	Rehabilitate side drains all along the CBD. Construct pave foot paths and parking lots.
2.	Poor management of solid waste	Marsabit Municipality	Dispose waste in an environmentally friendly manner.	Provide waste storage bins and cubicles.
3.	Connectivity	Marsabit Municipality	Improvement of Municipality roads to all weather roads. Improve walkways along the CBD.	Reclaim all encroached public way leaves. Do phased Road development starting from the CBD Municipality roads.
4.	Absence of green spaces/recreational facilities	Marsabit Municipality	Increase the green spaces all over the municipality with more indigenous species.	Tree planting along all the public spaces within the municipality. Create a green park within the CBD.
5.	Inadequate space for Bus Park	Marsabit Municipality	Identify and allocate more land for the bus park and associated facilities. Promote awareness and willingness to pay for parking charges.	Construct facilities for Bus Park, car park, lorry parking lot and bodaboda parking. Enact bye laws on enforcement of parking and collecting parking fees.
6.	Inadequate street lighting	Marsabit Municipality	Installation of more street lighting	Purchase of High mast lightings
